New Taipei City, Taiwan

工作經歷

專任經理 • MISUMI Group Inc.

三月 2022 - Present

RPA Solution and Architecture Planning

- Promote RPA within different departments of the company and discuss RPA solutions that can be designed for various workflows. (和公司內部不同部門進行rpa的推廣並探討不同需求)
- Design cross-departmental RPA processes for collaborative development and communicate design proposals. (設計跨部門可合作開發的rpa流程並溝通設計方案)

Automated Program Development

- Develop VBA or SQL programs for automated data analysis and applications. (開發vba或sql程式完成自動化資料分析與應用)

Generative AI Development

- Develop a conversational chatbot using ChatGPT4 tailored to company data for internal information queries, etc. (結合chatGpt4開發對應公司資料的對答機器人，用作公司內部員工查詢)

Cloud Applications

- Manage MIS-related operations by migrating local data to the cloud and assisting in database cloudification. (管理Mis相關作業因此將local端資料上雲，並協助資料庫雲端化等作業)
- Develop applications for database cloudification (SQL Server on Azure) and Azure SaaS. (資料庫雲端化(SQL Server 上Azure)和Azure SaaS等開發應用)

Formulation and Management of IT-related Projects and Development

- Manage digital transformation planning for IT, including general MIS transformation (training personnel in programming) and equipment cloudification. (管理IT的相關數位轉型內容)
- Collaborate on AI or LINE customer service development in line with future trends. (配合未來新趨勢進行AI或Line客服的開發與協作)

RPA Process Development

- Utilize Excel VBA for data organization and receive user data to complete processes. (結合Excel VBA 進行資料整理和接收User資料來完成流程)
- Write testing and development documentation. (測試和開發文件撰寫)

RPA Project Management

- Responsible for RPA project management in the company's Taiwan region, including system management, maintenance, troubleshooting, and integrating new requirements with existing systems.
- Conduct user education and training after RPA development completion. (RPA開發完成後進行使用者教育訓練)
- Serve as an internal RPA development staff mentor and assist in understanding development methods and processes. (擔任公司內部兼任rpa開發職員輔導員並協助了解開發方法)

專案經理 • Getac

七月 2021 - 二月 2022
